CLOUD-TSE

ARCHIVE

INSTALLATION

OFFER

Below our offer for the fiscalisation of your installation.

You will be notified of the implementation date as soon as possible.

FISKALTRUST. CHAÎNECLOUD AND FISKALTRUST. ARCHIVEAUDITABLE

27,50 €/per month

Central web service via CSP (Cryptographic Service Provider)

- Local software component (Cloud TSE Connector) with SMAERS (Secure Application for Electronic Record Keeping Systems) on your central computer
- Connection to the fiskaltrust middleware
- Centralised monitoring and configuration
- Legally compliant operation in the event of temporary loss of online connection
- Certified security of the communication interface between the local component (SMAERS) and the CSP components in the cloud
- Full data control of fiscal data in the cloud
- Cloud hosting in Germany (GDPR-compliant)

The „fiskaltrust.ArchiveAuditable2“ securely stores the data of the cloud TSE so that information can be retrieved at any time over the next 10 years to provide information to the tax office. The data is regularly and automatically exported to an external storage. The archive thus secures the data beyond the expiry date of the TSE (4 to 7 years).

POS-ARCHIV

5,00 €/per month

Audit-proof data storage

- Duration: 10 years
- DSFinV-K file export
- TSE-TAR file export
